

A landscape to enhance your business image
BAKER CREATIVE®

AT BAKER CREATIVE®, we believe that our business clients deserve the same design creativity, professional installation and comprehensive maintenance that we provide to residential properties. So unlike many commercial landscape companies, we never take a cookie-cutter approach. After

all, you have worked hard to build your company's image and make it distinctive in the marketplace. Your business property should reflect that success.

We will take time to discuss your business image and review your marketing materials. Then, working with the natural elements of your property, we will extend that image into the landscape. Our goal is to

create a place of beauty that provides a return on your investment.

To protect that investment, Baker Creative also offers a comprehensive landscape maintenance program. You enjoy the assurance that professionals are caring for the health, beauty and seasonal appeal of your property to help continue promoting your positive business image.

Doing business together

We are business people too, which is why we understand the value of enhancing your image through landscape design. Baker Creative enjoys an excellent reputation for quality and service that reflects the high standards of its

Brad Baker, President

founder and president, Brad Baker. Since 1988, he has led a team of trained horticulturists who provide expert consultation and service.

Because such training and experience are essential at every stage of landscaping, we will handle your complete installation, with an experienced horticulturist on the job. You can rest assured that we intend to give you the

same professional attention that your customers demand of you.

Please contact us at 215.884.4978 for more information or a consultation.

To see a sampling of our commercial work visit our web site at www.BakerCreative.com, click on "Design Portfolio" then select "Commercial Ventures."
